

## COMPENG 2SH4 Project – Statement of Contribution

Your Group Number                      Nabil's Team

Your Name                                      Omar Bayari

Your Team Member's Name      Nabil Memon

**You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:**

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

- I did iteration 1A, and iteration 2B
- We worked collectively on Iteration 3, but I mainly focused on features 2 and 3.
- I created the Food class, worked on ObjPos, Player class, and parts of the GameMechs class
- Worked on Project.cpp, ensuring the right drawing algorithm

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

- My partner worked on iteration 1B and iteration 2A
- We worked collectively on Iteration 3, but my partner mainly focused on feature 1
- My partner worked on the objPosArrayList, gameMechs, and parts of the Player class
- He also worked on project.cpp, confirmed the runLogic function

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

- It was a very good experience, everything was working smoothly.
- We worked very effectively together, each completing their tasks simultaneously
- We were both on schedule
